EXPERIENCE

StreamingFast & BooleanLabs | Montreal, QC

Lead Design Engineer | April 2024 - Present

Web Design & Innovation: Leads the development of high-performance web solutions, focusing on responsive and adaptive design. Utilizes React and NextJS, JavaScript, HTML5, CSS3, and ES2015+ to create interactive design systems and components for AI/LLM-driven platforms.

Achievements: Redesigns substreams.dev and thegraph.market, resulting in a 35% increase in user engagement and a 25% improvement in page load times.

Collaboration & Mentorship: Collaborates closely with developers to bridge design and development, ensuring seamless implementation of user-centered design solutions.

Prototyping & User Experience Enhancement: Develops prototypes to explore new product experiences, ensuring high accessibility standards and smooth user interactions across platforms.

Graphartist & Garcini Media | Montreal, QC

Founder & Senior Front-End Developer | September 2012 - Present

UI/UX Design & Development: Leads UI/UX design and front-end development for diverse international clients, improving user engagement and sales conversions through tailored web solutions.

Custom Solutions: Develops custom WordPress themes and plugins, enhancing site functionality and user experience.

Leadership: Mentors teams in agile practices, focusing on continuous improvement and streamlined project delivery.

SIGMA-RH | Montreal, QC

Senior Front-End Developer | May 2022 - April 2024

Responsive Web Design: Created and integrated adaptive HTML5/CSS3 designs, ensuring cross-browser compatibility with a mobile-first approach. Focused on performance optimization and accessibility in all designs.

System Modernization: Modernized legacy applications by aligning UX designs with industry standards such as Bootstrap and Material Design.

Collaboration: Worked within Agile development sprints, ensuring the iterative delivery of high-quality UX and front-end solutions.

i24NEWS | Montreal, QC

UX/Front-End & Backend Developer | January 2017 - January 2022

SAAS Platform Development: Designed and developed a custom SAAS platform from scratch to streamline communications, reducing errors by 20% and improving workflow efficiency by 30%.

Real-Time Broadcast Solution: Created a ticker system for live TV, enabling remote updates and integration with the live feed.

Project Leadership: Led development projects as the sole full-stack developer, delivering solutions under tight deadlines.
