EXPERIENCE

- Acousti-Lab inc.**
 UI Designer 2022
 As a freelance Graphic Designer, I was contracted to create a new brand identity for Acousti-Lab.
- i24NEWS**
 Front-End Developer, UI/UX Designer & Motion Designer 2017 - 2022
 As a Front-End Developer, UI/UX Designer & Motion Designer, I lead the visual and graphic teams and content mandated by journalists. I then evolved to leading the channel's branding efforts across all platforms. In my last 2 years, I also became Project Manager/ Developer, were I lead and took part in a number of new and innovative projects which are still used today and seen on live TV.
- eToro**
 Motion Designer 2021
 As a Motion Designer, I was contracted to create a promotional video for their social networks, with a short deadline.
- Polett Schwartzmann**
 WordPress Developer & UI/UX Designer 2021
 As a WordPress Developer & UI/UX Designer, I created an E-Commerce website. I began this project by using HTML/CSS, Bootstrap and Javascript, and later adapting this code to Wordpress to make an easily customizable theme.
- InstaFiltr**
 Developer Spark AR 2020 - 2021
 As a Spark AR Freelance Developer, I created a number of Instagram filters for different accounts, where I ensured the cohesive alignment of the filters to their individual needs and visual styles.
- Athiri**
 Motion Designer 2020
 As a Motion and Graphic designer for Athiri, I created various graphic content for a number of social media accounts across social media platforms. This included motion design videos and graphic design
- Blessing & Success**
 UI Designer & Developer 2019
 This contract with Blessing & Success Events and Touring consisted in the creation of HTML5 ads and banners across different formats, which were showcased on a number of ads, browsers and social media pages.
- Hen Mazzig**
 UI Designer & Developer 2019
 I developed an integral website upgrade, in both front and back-end for Hen Mazzig, a well-known writer and activist. This contract also included an improved management system. I transformed his WIX website design into a Wordpress theme.
- Israel Defense Forces**
 UI/UX Designer, Motion Designer & Full Stack Developer 2018 - 2020
 My position of UI/UX Designer, Motion Designer & Full Stack Developer for the Israel Defence Forces consisted in leading the creative team and ensured the cohesive alignment of our content to our visual style, in both motion and graphic design. I also lead a number of development projects. These projects were then posted across all social media platforms, where the follower base exceeds 5M followers.
- Apple Store Paris**
 Sales 2015 - 2016
 Working in sales at the Apple Store consisted in being highly knowledgeable about Apple products and transmitting this knowledge and love for the products to customers and businesses looking to purchase. As a Sales Associate, I ensured customer
- Coffre Abaval**
 UI/UX Designer et Developer 2015
 I created the design behind the Coffre Abaval website. I also developed the template for Wordpress with HTML, CSS and Javascript.
- Adopt a Contrator**
 UI Designer & Developer 2014
 I created the design and the development behind the Adopt a Contractor website. My inspiration stemmed from a number of eye-catching websites of the time which showcases both flat and responsive designs.
